Climate

Summer (November – April)

Expect intense heat in the daytime with occasional thunderstorms in the afternoon. Vegetation is dense and lush due to the summer rains and the bush teems with new born animals. A very good time for bird watching.

Autumn

At the end of the summer rains the water holes are full, temperatures begin to drop at night and the vegetations starts to change colour

Winter (May – October)

During winter the temperatures are pleasant during the day but very cold at night. Visibility in the bush is very good making winter and excellent time for game viewing.

Spring

The bush changes to lively green vegetation and temperatures are pleasant

Currency, Credit Cards, Phones & Internet

The currency for South Africa is the South African Rand (ZAR). Foreign exchange may be arranged at the airport or in major centres. It is not recommended that travellers carry large sums of cash, keep a reasonable amount on hand and primarily use credit cards.

All major credit cards are widely accepted.

There may be some areas on the reserve where there isn't any mobile phone coverage.

Health Risks

Immunisation:

When entering South Africa, no international immunisation is required, however, a yellow fever vaccination certificate is required from travellers if they enter South Africa within 6 days of leaving an infected country.

Our advice: Visit your local (travel) doctor to get up-to-date information about requirements when travelling.

DTP inoculation (diphtheria, tetanus and polio) is essential.

Please visit the following web page for advice from the UK Foreign Office:

<https://travelhealthpro.org.uk/country/201/south-africa>

Drinking Water:

Drinking water is available at the project (filtered rainwater); always make sure you keep hydrated.

HIV/Aids in South Africa:

As in other countries, HIV/Aids is a serious concern in South Africa and one you must be aware of. You should always be careful when dealing with an injured person to avoid the risk of infection. Always take necessary precautions and avoid sexual contact.

Sun:

South Africa has a warm sunny climate, you should wear sunscreen and a hat whenever you are out of doors during the day, particularly between 10am and 4 pm – regardless of whether there is cloud cover or not. Whatever your complexion you can still get sunburned if you are from a cooler climate. Sunglasses are also recommended as the glare of the African sun can be very strong.

Malaria:

The project is located in a malaria free area

Insurance

Personal travel insurance is compulsory. Travel insurance does not need to be expensive and there are many good deals available for backpackers etc. Always be sure to check the insurance details to make sure you are covered for Covid 19, theft, loss, illness and injury. Check to see if your medical benefits are paid out as they incur or on your return home.

Covid 19 Requirements

Fully vaccinated travellers just need to provide proof of their vaccination status to enter South Africa.

If you are not fully vaccinated you must have a negative PCR test taken no more than 48 hours before arrival in South Africa, you must have a paper copy of your test result, it is recommended that you have several copies of the test with you.

Please see the link below for up to date information on requirements to enter South Africa:
