Climate

Summer (November – April)

Expect intense heat in the daytime with occasional thunderstorms in the afternoon. Vegetation is dense and lush due to the summer rains and the bush teems with new born animals. A very good time for bird watching.

Autumn

At the end of the summer rains the water holes are full, temperatures begin to drop at night and the vegetation starts to change colour

Winter (May – October)

During winter the temperatures are pleasant during the day but very cold at night. Visibility in the bush is very good making winter an excellent time for game viewing.

Spring

The bush changes to lively green vegetation and temperatures are pleasant

Currency, Credit Cards, Phones & Internet

The currency for South Africa is the South African Rand (ZAR). Foreign exchange may be arranged at the airport or in major centres. It is not recommended that travellers carry large sums of cash, keep a reasonable amount on hand and primarily use credit cards.

Major credit cards are accepted in large towns/cities, you may wish to have cash to purchase snacks/refreshments and for purchases at the reserves and in the local communities.

There are some areas on the reserves where there isn't any mobile phone coverage. There is no WiFi at Nambiti, you can access WiFi in the dining area at Zingela although this has restricted bandwidth so not all at once!

Tipping

Whilst there is no obligation, it is a nice gesture to show your appreciation for the rangers and housekeeping staff by leaving a small tip/donation for the staff at the reserve when you leave; any amount is always appreciated.

A 10% tip is normal for any café/restaurant when eating out.

Health Risks

Immunisation:

When entering South Africa, no international immunisation is required, however, a yellow fever vaccination certificate is required from travellers if they enter South Africa within 6 days of leaving an infected country.

Our advice: Visit your local (travel) doctor to get up-to-date information about requirements when travelling.

DTP inoculation (diphtheria, tetanus and polio) is essential.

Please visit the following web page for advice from the UK Foreign Office:

<https://travelhealthpro.org.uk/country/201/south-africa>

Drinking Water:

Drinking water is available at the project (filtered rainwater); always make sure you keep hydrated.

HIV/Aids in South Africa:

As in other countries, HIV/Aids is a serious concern in South Africa and one you must be aware of. You should always be careful when dealing with an injured person to avoid the risk of infection. Always take necessary precautions and avoid sexual contact.

Sun:

South Africa has a warm sunny climate, you should wear sunscreen and a hat whenever you are out of doors during the day, particularly between 10am and 4 pm – regardless of whether there is cloud cover or not. Whatever your complexion you can still get sunburned if you are from a cooler climate. Sunglasses are also recommended as the glare of the African sun can be very strong.

Malaria:

The project is located in a malaria free area
