ABOUT THE PROJECT

AFRICA

Your Conservation Field Trip Explained

- A unique academic conservation experience based in South Africa
- Live and work in the wild of Africa
- The opportunity to experience hands on wildlife conservation
- Bespoke, tailor made projects to suit research requirements
- Project Activities include:
 - Pioneering Conservation Research
 - Conservation Activities
 - Cultural Enrichment
 - Wildlife, Livestock and Domestic Community Work
- Full 12 nights in South Africa
- All inclusive experience
- The most incredible wildlife experience you will ever have

ABOUT THE PROJECT

AFRICA

KwaZulu-Natal Wildlife & Veterinary Project

Our academic team and qualified rangers at the KwaZulu-Natal Conservation Research Project offer a bespoke course to each institution dependent on their own personal objectives and learning needs.

We set out the basis of the trip, comprising of a 12-day academic module split between the two conservation reserves.

This is not a Safari Holiday!

A full day will be planned but will vary from day to day depending on the days task and research goals.

The project split and duration are as follows:

12 Day Itinerary

Days 1 – 6

Nambiti Big 5 Conservation Research

Days 6 – 12

ABOUT THE PROJECT

AFRICA

Research – Habitat and Prey Selection: Predators

Focus on Lion and Cheetah populations:

GPS coordinates from tracking collars

Can be used for movement/spatial/home range analysis

Wildlife Monitoring – Elephant Impact Assessment

Research into impact of elephant on the eco system:

Matriarch collared so GPS range data available

Herd population data

Elephant impact assessments from February '23

Long term ongoing project looking at elephant impact on vegetation

Students will be taught and work alongside the field guides and scientific team. The following examples depict the day-to-day activities that may be undertaken as part of the project at Zingela Reserve.

- Spatial Distribution and Habitat use of species
- Use of Telemetry Tracking
- Giraffe migration and Conservation Project
- Reptile pit fall traps
- Freshwater Ecology
- Mini SASS
- Fish Tagging
- Bird Ringing
- Educational Bush Walks – Ecology & Botany
- Tracks, Signs and Spoor
- Community Development
- Camera Trapping and data processing

Potjie Cooking Competition

A traditional South African experience, the Potjie competition involves cooking a stew in three-legged pots over an open fire..

The winning dish, judged by our expert cooks, will be served for dinner, allowing everyone to enjoy the fruits of their labor.

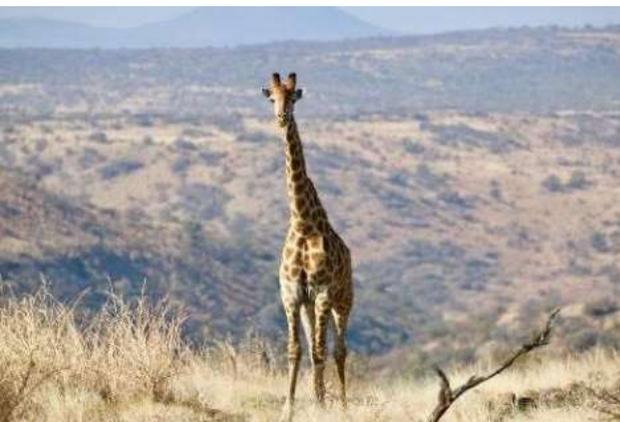

Giraffe Migration and Research Project

Population data and database for individuals

Migration and range data through unfenced territories

Diet and vegetation impact assessment

Genetic diversity

River Assessments –

Fresh water eel project –

Sustainability & Social, Economic Responsibility

Local employment from rural communities – our project partners employ a high percentage of staff from local communities. They advocate training to advance careers in hospitality, wildlife and conservation.

Low environmental impact camps – our project bush camps are built with minimal impact on the environment. Resources from the surrounding area are utilised for buildings, water is (where possible) pumped from local river sources and green energy supplies, such as solar are championed.

Community donations and support – we encourage all our international study groups to be proactive in donation collections and arrange for excess baggage for said donations to be taken out to South Africa in support of the local communities.

Move Africa, supporting young females – 3 in 10 girls in South Africa miss a week of school every month because they cannot afford basic sanitary products. Our project partners work with Move Africa alongside their partner NGOs, to distribute menstrual cups to the local communities and provide education workshops.

Rhino Art – Project rhino realises the enormous responsibility the youth have to ensure our wildlife is protected for many generations to come. They ensure they can reach and educate as many kids as possible through Rhino Art, using art workshops to teach about conservation. This initiative is supported by our local project partners.

Food/crop education – our project partners encourage food and crop education to rural communities, where cost of living to low income families and distance travelled to obtain basic resources can prove problematic. Projects include community allotments and providing education on best practice for crop rotations, harvest seasons and nutrition.

Recycling workshops – Litter, and in particular plastics, is a major issue and threat to the ecosystem in Southern Africa. Rural communities have limited waste removal available and it is therefore a problem escalating at an alarming rate. Recycling workshops are provided through local schools to help educate children on the importance of correctly disposing of litter and recycling plastics.
