KwaZulu-Natal Community and Volunteering Project

The KwaZulu-Natal Community Volunteering project is located conveniently close to Durban (3 hours) on the KwaZulu-Natal North Coast in South Africa it is close to the beautiful St Lucia Wetlands, a UNESCO World Heritage Site

The main project location is Bonamanzi and the surrounding community; Bonamanzi is a Zulu word for “look water!” The nearest town is Hluhluwe which has South Africa’s oldest Game Reserve.

The second module of the project is located in St Lucia this is a small but quaint village that is becoming a top tourist destination, St Lucia is famous for its huge population of wild hippos.

KwaZulu-Natal including St Lucia is located in a low to no risk malaria area – Antimalarials are not usually advised.

Students will be taught and have the opportunity to work alongside several inspiring professionals -

Project Rhino. - Project Rhino aims to educate school children on the conservation of Rhinos and the Rhino poaching crisis. It aims to increase relationships with game reserves and the neighboring communities. Project Rhino has reached over 700,000 school children in South Africa, educating these children about the importance of the natural world and the wildlife around them. Children attend presentations and are encouraged to produce artwork in support of the local wildlife. The education links directly to the Zulu culture

Move Africa - Champion and encourage girls on how to use menstrual cups as a sustainable solution to period poverty. In Africa 3 out of 10 girls miss out on a week of school every month, due to not being able to afford menstrual products. This has a huge impact on the girl's outlook. Move Africa's aim is to equip young women with sustainable sanitary ware and relevant education about menstrual cycles
