

Myerscough College Project Presentation

The background image is a composite of two savanna scenes. On the left, a group of four people (three men and one woman) are seen from behind, standing in tall yellow grass and looking towards a green hill under a blue sky with white clouds. On the right, a close-up of a lioness is shown, looking towards the left with its mouth slightly open, revealing its tongue. A large, semi-transparent circular graphic is centered over the image, containing the text "KwaZulu-Natal Conservation Research".

KwaZulu-Natal Conservation Research

AFRICA

GLOBAL reach. **ADVENTURE** for all. **PROJECTS** to inspire.

ABOUT US:

AFRICA

GAP Africa Projects

- We are a specialised travel company that offers academic trips and volunteering opportunities for groups and individual travellers, in a number of locations worldwide
- We pride ourselves on curating experiences which are personalised to your needs and requirements
- Our first project travelled in 2010
- Full ATOL Bonding
- Working with over 50 Colleges and Universities around the UK
- A small dedicated team in the UK and South Africa.

AFRICA

KWAZULU-NATAL PROJECT OVERVIEW

Overview and location
of the project

ABOUT THE PROJECT

AFRICA

Your Conservation Field Trip Explained

- A unique academic conservation experience based in South Africa
- Live and work in the wild of Africa
- The opportunity to experience hands on wildlife conservation
- Bespoke, tailor made projects to suit research requirements
- Project Activities include:
 - Pioneering Conservation Research
 - Conservation Activities
 - Cultural Enrichment
- Full 13 nights in South Africa
- All inclusive experience
- The most incredible wildlife experience you will ever have

ABOUT THE PROJECT

AFRICA

What is a Game Reserve?

- A game reserve is a large area of protected land where wild animals can live safely.
- Wildlife is free roaming throughout the reserve allowing them to thrive in their natural habitat.
- Reserves are either Government Owned (National Parks) or Privately Owned/Managed.
- Most reserves will have physical boundaries i.e. electrified fence line.
- Due to physical boundaries, wildlife must be managed due to restraints on population growth, migration and resources.
- Wildlife is protected but also utilised as a tourist attraction (Eco Tourism) which creates funding for conservation efforts and research.

ABOUT THE PROJECT

Our conservation work
in more detail

ABOUT THE PROJECT

AFRICA

KwaZulu-Natal Conservation Research

Our academic team and qualified rangers at the KwaZulu-Natal Conservation Research Project offer a bespoke course to each institution dependent on their own personal objectives and learning needs.

We set out the basis of the trip, comprising of a 13-day academic module split between the two conservation reserves plus 3 nights at St Lucia Coastal project

A full day will be planned but will vary from day to day depending on the day's task and research goals.

The project split and duration are as follows:

13 Day Itinerary

Days 1 – 6

Nambiti Big 5 Conservation Research

Days 6 – 10

Zingela Wilderness Conservation and Adventure Activities

Days 10-13

St Lucia Coastal Project

YOUR PROJECT

AFRICA

Your Conservation Programme – Nambiti

Students will be taught and work alongside the field guides and conservation team. The following examples depict the day-to-day activities that may be undertaken as part of the project at Nambiti.

- Alien Vegetation Control / Reserve Maintenance
- Use of Telemetry Tracking
- Elephant Monitoring / Population Study
- Rhino Monitoring – Awareness
- Anti-poaching talk and fence walk
- Camera Trapping
- Night Drive
- Big Five Bush Walk
- Habitat and Prey Selection of Predators
- Tracks, Signs and Spoor
- Community Development

ABOUT THE PROJECT

AFRICA

Research – Habitat and Prey Selection: Predators

Focus on Lion and Cheetah populations:

GPS coordinates from tracking collars

Can be used for movement/spatial/home range analysis

Wildlife Monitoring – Elephant Impact Assessment

Research into impact of elephant on the eco system:

Matriarch collared so GPS range data available

Herd population data

Elephant impact assessments from February '23

Long term ongoing project looking at elephant impact on vegetation

4 Days at Zingela Nature Reserve

River Research and Adventure

Your Conservation Programme – Zingela

Students will be taught and work alongside the field guides and scientific team. The following examples depict the day-to-day activities that may be undertaken as part of the project at Zingela Reserve.

- Spatial Distribution and Habitat use of species
- Use of Telemetry Tracking
- Giraffe migration and Conservation Project
- Reptile pit fall traps
- Freshwater Ecology
- Mini SASS
- Fish Tagging
- Bird Ringing
- Educational Bush Walks – Ecology & Botany
- Tracks, Signs and Spoor
- Community Development
- Camera Trapping and data processing

ABOUT THE PROJECT

AFRICA

Zingela River Safari

Zingela Wildlife Reserve covers 12,500 acres of predator free, pristine African bushveld. You will have the opportunity to be involved with the research that takes place at the property;. You will also have the chance to participate in a host of activities during your stay.

ATOL Certificate

This confirms that your money is protected by the ATOL scheme and that you can get home if your travel company collapses.

This certificate sets out how the ATOL scheme will protect the people named on it for the parts of their trip listed below.

Who is protected? Number of passengers: 19

What is protected?

You can find more detailed information on your booking, including price, on this confirmation. You will receive from Gap Africa Projects Limited.

Who is protecting your trip? Gap Africa Projects Limited ATOL Number 10890

Your protection

You are protected from when you were given this certificate to the end of your trip. If Gap Africa Projects Limited stops trading, the passengers named above will either:

- 1 complete their trip and return to the UK, or
- 2 receive a refund.

Your protection depends on the terms of the ATOL scheme (available at www.atol.org.uk).

If Gap Africa Projects Limited stops trading, you must follow the instructions at www.atol.org.uk (where there will be details of arrangements to bring people back to the UK, and information on how people can claim their money back) or you can call +44 (0) 20 7463 6360.

By issuing this ATOL Certificate, under Regulation 17 of the Civil Aviation (Travel Organisations Licensing) Regulations 2012, Gap Africa Projects Ltd certifies that the trip to which it applies is sold to you with the ATOL held by the organiser named above. The ATOL scheme is run by the Civil Aviation Authority and is not a guarantee. To see what it is and what you can expect, together with information on its limits and conditions go to www.atol.org.uk. Its use is for the protection of the ATOL scheme, you have no claim under the Package Travel Regulations. For more information visit www.atol.org.uk to the Travel and Transport section.

Sustainability & Social, Economic Responsibility

Local employment from rural communities – our project partners employ a high percentage of staff from local communities. They advocate training to advance careers in hospitality, wildlife and conservation.

Low environmental impact camps – our project bush camps are built with minimal impact on the environment. Resources from the surrounding area are utilised for buildings, water is (where possible) pumped from local river sources and green energy supplies, such as solar are championed.

Community donations and support – we encourage all our international study groups to be proactive in donation collections and arrange for excess baggage for said donations to be taken out to South Africa in support of the local communities.

Move Africa, supporting young females – 3 in 10 girls in South Africa miss a week of school every month because they cannot afford basic sanitary products. Our project partners work with Move Africa alongside their partner NGOs, to distribute menstrual cups to the local communities and provide education workshops.

Rhino Art – Project rhino realises the enormous responsibility the youth have to ensure our wildlife is protected for many generations to come. They ensure they can reach and educate as many kids as possible through Rhino Art, using art workshops to teach about conservation. This initiative is supported by our local project partners.

Food/crop education – our project partners encourage food and crop education to rural communities, where cost of living to low income families and distance travelled to obtain basic resources can prove problematic. Projects include community allotments and providing education on best practice for crop rotations, harvest seasons and nutrition.

Recycling workshops – Litter, and in particular plastics, is a major issue and threat to the ecosystem in Southern Africa. Rural communities have limited waste removal available and it is therefore a problem escalating at an alarming rate. Recycling workshops are provided through local schools to help educate children on the importance of correctly disposing of litter and recycling plastics.

GLOBAL reach. **ADVENTURE** for all. **PROJECTS** to inspire.
