The project location is **Bonamanzi** and the surrounding community; Bonamanzi is a Zulu word for “look water!” The nearest town is Hluhluwe which has South Africa’s oldest Game Reserve.

KwaZulu-Natal is located in a low to no risk malaria area – Antimalarials are not usually advised.

ABOUT THE PROJECT

PROJECT INFORMATION PACK 6

KwaZulu-Natal Community Volunteering Project

Students will be taught and have the opportunity to work alongside several inspiring professionals -

Project Rhino. - Project Rhino aims to educate school children on the conservation of Rhinos and the Rhino poaching crisis. It aims to increase relationships with game reserves and the neighboring communities. Project Rhino has reached over 700,000 school children in South Africa, educating these children about the importance of the natural world and the wildlife around them. Children attend presentations and are encouraged to produce artwork in support of the local wildlife. The education links directly to the Zulu culture

Move Africa - Champion and encourage girls on how to use menstrual cups as a sustainable solution to period poverty. In Africa 3 out of 10 girls miss out on a week of school every month, due to not being able to afford menstrual products. This has a huge impact on the girl's outlook. Move Africa's aim is to equip young women with sustainable sanitary wear and relevant education about menstrual cycles
