ABOUT THE PROJECT

AFRICA

Dr Peter Caldwell – Wildlife Specialist Veterinary Surgeon

Dr. Peter Caldwell is a leading wildlife veterinary surgeon based in Pretoria. He owns and operates a small animal clinic and travels extensively across South Africa and beyond, treating priority and endangered species. He specialises particularly in cheetahs and serves as the primary veterinarian and advisor at Welgevonden Game Reserve. Dr. Caldwell is actively involved in wildlife conservation and research, contributing to studies on fertility control and disease management in wild animals. His expertise is frequently sought by reserves and conservation organisations.

ABOUT THE PROJECT

AFRICA

Dr Zoe Glyphis – Wildlife Veterinarian – Predator Specialist

Dr Zoe Glyphis has become one of South Africa's leading predator specialists and is on the forefront with veterinary medicine and veterinary assistance of wild dog, hyena and cheetah conservation all over South Africa.

She is helping and assisting several NGO groups and organizations with their efforts to increase predator ranges and to establish safe and genetically viable populations in new conservation areas.

ACCOMMODATION & LIFESTYLE

Life in the African Bush

Welgevonden Accommodation

The student centre and camp is based on the reserve and boasts ten tents that sleep two people per tent in single beds, each tent also has lighting and electricity supply.

There are communal hot and cold showers and regular flushing toilets. There are communal facilities including a lecture room, canteen, lounge, entertainment area and storage fridge.

The centre also has access to Wi-Fi.

The camp is fenced off inside the boundaries of the reserve.

Food at the Project – Welgevonden

Ingredients for three meals a day are provided, on a self cook basis. Students will take part in communal cooking and keeping the kitchen tidy. This creates a vibrant and social camp atmosphere.

All meals are provided in the communal dining room, there is an outside area for dining as well.

Meals will either be served at the facility or in the field 'picnic' style, this depends on activities either planned or unscheduled.

Dietary Requirements

Provision can be made for Vegetarian & Vegan diets and for those who have a medical condition such as Coeliac disease that requires a Gluten Free Diet and for those with severe allergies to dairy, eggs or nuts.

Sustainability & Social, Economic Responsibility

Local employment from rural communities – our project partners employ a high percentage of staff from local communities. They advocate training to advance careers in hospitality, wildlife and conservation.

Low environmental impact camps – our project bush camps are built with minimal impact on the environment. Resources from the surrounding area are utilised for buildings, water is (where possible) pumped from local river sources and green energy supplies, such as solar are championed.

Community donations and support – we encourage all our international study groups to be proactive in donation collections and arrange for excess baggage for said donations to be taken out to South Africa in support of the local communities.

Move Africa, supporting young females – 3 in 10 girls in South Africa miss a week of school every month because they cannot afford basic sanitary products. Our project partners work with Move Africa alongside their partner NGOs, to distribute menstrual cups to the local communities and provide education workshops.

Rhino Art – Project rhino realises the enormous responsibility the youth have to ensure our wildlife is protected for many generations to come. They ensure they can reach and educate as many kids as possible through Rhino Art, using art workshops to teach about conservation. This initiative is supported by our local project partners.

Food/crop education – our project partners encourage food and crop education to rural communities, where cost of living to low income families and distance travelled to obtain basic resources can prove problematic. Projects include community allotments and providing education on best practice for crop rotations, harvest seasons and nutrition.

Recycling workshops – Litter, and in particular plastics, is a major issue and threat to the ecosystem in Southern Africa. Rural communities have limited waste removal available and it is therefore a problem escalating at an alarming rate. Recycling workshops are provided through local schools to help educate children on the importance of correctly disposing of litter and recycling plastics.
