ABOUT THE WATERBERG

AFRICA

What is a Game Reserve?

- A game reserve is a large area of protected land where wild animals can live safely
- Wildlife is free roaming throughout the reserve allowing them to thrive in their natural habitat
- Reserves are either Government Owned (National Parks) or Privately Owned/Managed
- Most reserves will have physical boundaries i.e. electrified fence line
- Due to physical boundaries, wildlife must be managed due to restraints on population growth, migration and resources
- Wildlife is protected but also utilised as a tourist attraction (Eco Tourism) which creates funding for conservation efforts and research

The Rhino Orphanage

The Rhino Orphanage was the first-ever specialised, non-commercial centre dedicated to the rescue, rehabilitation, raising and release of orphaned rhinos back into the wild.

Although new-born rhinos can weigh up to 50kgs, they are essentially “helpless” and require protection so that they may survive and ultimately thrive.

ATOL Certificate

This confirms that your money is protected by the ATOL scheme and you can get home if your travel company collapses.

This certificate sets out how the ATOL scheme will protect the people named on it for the parts of their trip listed below.

Who is protected? Number of passengers: 18

What is protected?

You can find more detailed information on your booking, including price, on this confirmation you will receive from Gap Africa Projects Limited.

Who is protecting your trip?
Gap Africa Projects Limited ATOL Number 10690

Your protection
You are protected from when you were given this certificate to the end of your trip. If Gap Africa Projects Limited stops trading, the passengers named above will either:

- 1 complete their trip and return to the UK, or
- 2 receive a refund.

Your protection depends on the terms of the ATOL scheme (available at www.atol.org.uk).

If Gap Africa Projects Limited stops trading, you must follow the instructions at www.atol.org.uk (where there will be details of arrangements to bring people back to the UK, and information on how people can claim their money back) or you can call +44 (0) 20 7463 6360.

By issuing this ATOL Certificate, under Regulation 17 of the Civil Aviation (Air Travel Organiser's Licensing) Regulations 2012, Gap Africa Projects Ltd certifies that the trip to which it applies is sold in line with the ATOL held by the organiser named above. The ATOL scheme is run by the Civil Aviation Authority and paid for by the Air Travel Trust. To see what that is and what you can expect, together with full information on its rules and conditions go to www.atol.org.uk. As well as the protection of the ATOL scheme, you have protection under the Package Travel Regulations. For more information see www.direct.gov.uk in the Travel and Transport section.

Sustainability & Social, Economic Responsibility

Local employment from rural communities – our project partners employ a high percentage of staff from local communities. They advocate training to advance careers in hospitality, wildlife and conservation.

Low environmental impact camps – our project bush camps are built with minimal impact on the environment. Resources from the surrounding area are utilised for buildings, water is (where possible) pumped from local river sources and green energy supplies, such as solar are championed.

Community donations and support – we encourage all our international study groups to be proactive in donation collections and arrange for excess baggage for said donations to be taken out to South Africa in support of the local communities.

Move Africa, supporting young females – 3 in 10 girls in South Africa miss a week of school every month because they cannot afford basic sanitary products. Our project partners work with Move Africa alongside their partner NGOs, to distribute menstrual cups to the local communities and provide education workshops.

Rhino Art – Project rhino realises the enormous responsibility the youth have to ensure our wildlife is protected for many generations to come. They ensure they can reach and educate as many kids as possible through Rhino Art, using art workshops to teach about conservation. This initiative is supported by our local project partners.

Food/crop education – our project partners encourage food and crop education to rural communities, where cost of living to low income families and distance travelled to obtain basic resources can prove problematic. Projects include community allotments and providing education on best practice for crop rotations, harvest seasons and nutrition.

Recycling workshops – Litter, and in particular plastics, is a major issue and threat to the ecosystem in Southern Africa. Rural communities have limited waste removal available and it is therefore a problem escalating at an alarming rate. Recycling workshops are provided through local schools to help educate children on the importance of correctly disposing of litter and recycling plastics.
