HOWICK

Our community work in more detail

ABOUT YOUR PROJECT

AFRICA

Howick

Howick is a town in the Kwa-Zulu Natal province. It is known as the 'place of the tall one'. It is home to Howick Falls, the second highest in South Africa. Standing at over 95 metres, water falls over the dolerite cliffs on its way to the Indian Ocean.

Howick is most famous for being the place in which Nelson Mandela was arrested in 1962 and held captive until his release in 1990.

ABOUT YOUR PROJECT

AFRICA

Project Location – St Lucia

The location for the final 3 nights of your project is the small coastal town of St. Lucia which is situated on the northern side of the estuary.

The area is famous for its wetlands and is a fantastic opportunity to witness crocodiles and hippos in their natural environment.

Sustainability & Social, Economic Responsibility

Local employment from rural communities – our project partners employ a high percentage of staff from local communities. They advocate training to advance careers in hospitality, wildlife and conservation.

Low environmental impact camps – our project bush camps are built with minimal impact on the environment. Resources from the surrounding area are utilised for buildings, water is (where possible) pumped from local river sources and green energy supplies, such as solar are championed.

Community donations and support – we encourage all our international study groups to be proactive in donation collections and arrange for excess baggage for said donations to be taken out to South Africa in support of the local communities.

Move Africa, supporting young females – 3 in 10 girls in South Africa miss a week of school every month because they cannot afford basic sanitary products. Our project partners work with Move Africa alongside their partner NGOs, to distribute menstrual cups to the local communities and provide education workshops.

Rhino Art – Project rhino realises the enormous responsibility the youth have to ensure our wildlife is protected for many generations to come. They ensure they can reach and educate as many kids as possible through Rhino Art, using art workshops to teach about conservation. This initiative is supported by our local project partners.

Food/crop education – our project partners encourage food and crop education to rural communities, where cost of living to low income families and distance travelled to obtain basic resources can prove problematic. Projects include community allotments and providing education on best practice for crop rotations, harvest seasons and nutrition.

Recycling workshops – Litter, and in particular plastics, is a major issue and threat to the ecosystem in Southern Africa. Rural communities have limited waste removal available and it is therefore a problem escalating at an alarming rate. Recycling workshops are provided through local schools to help educate children on the importance of correctly disposing of litter and recycling plastics.
