

Tennis Coaching & Playing Project – Accra, Ghana

Project Overview

Tennis in Ghana is an emerging sport, steadily improving with the support of the Ghana Tennis Association (GTA), and this placement offers volunteers the chance to work with young players eager to develop their skills and enjoy the game. As a volunteer, you'll be placed alongside local coaches at clubs, the National Tennis Centre, or the National Sports College in Accra, helping run training sessions, organise games, and provide individual guidance to aspiring players. Depending on your experience, you may also support the Junior National Squads, work with some of Ghana's top young talent, and have the opportunity to identify and nurture promising players. This placement focuses on participation, fun, and skill development, giving volunteers the chance to contribute meaningfully to Ghanaian tennis while also testing their own abilities in a supportive, engaging environment. It is likely that there will be a whole variety of other activities you can get involved with while you are away which can all be organised by the in-country team.
