ABOUT THE PROJECT

AFRICA

KwaZulu-Natal Agriculture and Conservation Research

Our academic team and qualified rangers at the KwaZulu-Natal Conservation and Agriculture Research Project offer a bespoke course to each institution dependent on their own personal objectives and learning needs.

We set out the basis of the trip, comprising of a 10-night academic module split between three locations.

A full day will be planned but will vary from day to day depending on the day's task and research goals.

The project split and duration are as follows:

10 Night Itinerary

6 Nights

Baynesfield Estate, Richmond Agriculture and Conservation Activities

2 Nights

The Old Mushroom Farm, Howick Agriculture Tour

2 Nights

Nambiti Big 5 Conservation Research

A giraffe stands in the foreground on the right, looking towards the left. The background features a vast landscape with a vineyard in the middle ground, rolling green hills, and a blue sky. The scene is bright and sunny.

AFRICA

8 Nights at Baynesfield Estate and The Old Mushroom Farm

Agriculture and Conservation
Research

ABOUT THE PROJECT

AFRICA

Baynesfield Estate, Richmond and The Old Mushroom Farm, Howick (8 Nights)

Baynesfield Estate is a large, historic, and working agricultural estate in KwaZulu-Natal, South Africa. It was established by Joseph Baynes in the late 19th century and is now a diverse farming operation, including agricultural research. The Old Mushroom Farm in **Howick** was once a working mushroom farm, now transformed into a unique lifestyle destination.

Agriculture Visits and Research Projects

Avocado Heritage Farm– Set on a South African heritage site, this internationally acclaimed avocado farm exports high-quality fruit to Europe and practices award-winning sustainable farming. You will be introduced to:

- Innovative pruning techniques and tree manipulation methods to enhance yield
- The use of manmade windbreaks for fruit quality improvement
- On-site compost production and application for soil health
- Global standards of sustainable agriculture

Community Agriculture Project– You will be involved in developing this Agri-village on an existing 900 ha commercial farm. Projects include:

- Education & training for the community (teaching children vital farming skills)
- Food security – vegetable gardens
- Commercial nursery – protect threatened habitat (Cape Parrot Project)
- Crops & livestock

Agriculture Visits and Research Projects

Commercial Dairy Farm– You will be introduced to:

- Herd runs with vet
- AI Presentation and practical
- Pasture walks, plate metre checks on dry matter content and impact of fertiliser regimes on pastures

Local Farm Visits, Howick. You will have guided tours of local:

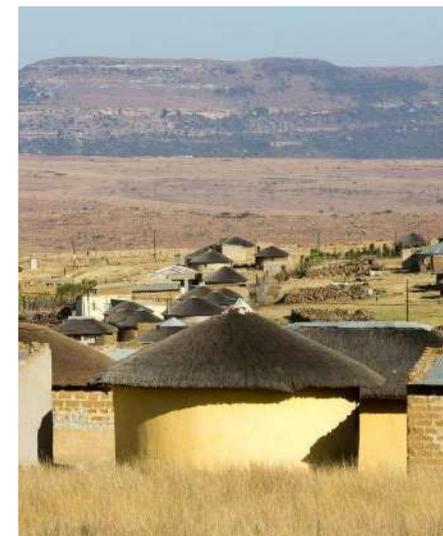

- Dairy Farms
- Cheese Farms
- Organic Farms

Sustainability & Social, Economic Responsibility

Local employment from rural communities – our project partners employ a high percentage of staff from local communities. They advocate training to advance careers in hospitality, wildlife and conservation.

Low environmental impact camps – our project bush camps are built with minimal impact on the environment. Resources from the surrounding area are utilised for buildings, water is (where possible) pumped from local river sources and green energy supplies, such as solar are championed.

Community donations and support – we encourage all our international study groups to be proactive in donation collections and arrange for excess baggage for said donations to be taken out to South Africa in support of the local communities.

Move Africa, supporting young females – 3 in 10 girls in South Africa miss a week of school every month because they cannot afford basic sanitary products. Our project partners work with Move Africa alongside their partner NGOs, to distribute menstrual cups to the local communities and provide education workshops.

Rhino Art – Project rhino realises the enormous responsibility the youth have to ensure our wildlife is protected for many generations to come. They ensure they can reach and educate as many kids as possible through Rhino Art, using art workshops to teach about conservation. This initiative is supported by our local project partners.

Food/crop education – our project partners encourage food and crop education to rural communities, where cost of living to low income families and distance travelled to obtain basic resources can prove problematic. Projects include community allotments and providing education on best practice for crop rotations, harvest seasons and nutrition.

Recycling workshops – Litter, and in particular plastics, is a major issue and threat to the ecosystem in Southern Africa. Rural communities have limited waste removal available and it is therefore a problem escalating at an alarming rate. Recycling workshops are provided through local schools to help educate children on the importance of correctly disposing of litter and recycling plastics.

GLOBAL reach. **ADVENTURE** for all. **PROJECTS** to inspire.
