ABOUT THE PROJECT

Our conservation work
in more detail

ABOUT SIBUYA GAME RESERVE

AFRICA

Sibuya Game Reserve

Sibuya is a Malaria-free Eco destination, on the Eastern Cape's Sunshine Coast, between Port Elizabeth and East London.

Sibuya Game Reserve incorporates the unique East Cape Valley Bushveld, Grasslands and Coastal Forests. Antelope abound, including the rare Bontebok and Oribi. Elephants, giraffe and plains zebra silhouetted against an Indian Ocean backdrop complete a truly memorable picture.

The ancient floodplains and pristine coastal forest host an abundance of wildlife: nearly 400 bird species and 45 species of recorded wildlife including the "Big Five". The lush vegetation ensures a high density of animals and special game-viewing experiences are guaranteed.

YOUR PROJECT

AFRICA

The **Sibuya Wilderness Experience** offers students and participants the unique and exciting opportunity to get hands-on experience in the conservation efforts of Sibuya Game Reserve.

The team of passionate conservationists work tirelessly to save endangered and threatened terrestrial and marine wildlife from extinction.

Students will take part in short and long-term projects which are intended to create sustainability for generations to come. Tasks may vary from physical work to interesting and interactive lecture-based content.

The newly launched Programme focuses on an impactful rescue and anti-poaching scope for wildlife and a strong marine conservation aim. By exposing participants to the conservation work and nurturing in them a hands-on mentality, the team believe they can make a difference.

Conservation does not stop at conserving nature alone but includes a responsibility to uplift local and impoverished communities. This responsibility includes environmental education of the community as to its role in and the benefits of conserving biodiversity and further stresses the importance of conserving natural resources.

Your Conservation Programme

- Lion monitoring
- Elephant monitoring
- Rhino monitoring
- Fencing and Alien Plant clearing
- Community Outreach
- Coastal Dunes and Rocky Shores
- Kayaking
- Insect Identification
- SANCCOB visit

Presentations and Talks on:

- Lion Conservation
- Elephant Ecology
- Rhino Conservation
- Ornithology (Birds)

Conservation Programme – The Bush

There is so much opportunity in this newly established and expanding reserve. They are in the process of incorporating more land, and 'rewilding' needs to take place, so students are exposed to unique hands-on conservation and monitoring.

Key species monitoring: This involves locating the ecologically significant terrestrial species (**elephant, white rhino, lion**), identifying individuals using identikits and then monitoring their behaviour.

Reserve maintenance: fence and road maintenance as well as alien plant removal are important tasks on the reserve where students will have a chance to be physical and get their hands dirty.

Insect surveys: Tasks include collecting data on insects, reptiles and anything else crawling along the ground. From digging the holes to finding the specimens and identifying them – students will be part of this exciting research.

Conservation Programme – Ocean and Estuary

The unique aspect of this reserve is that it is accessible by boat along the Kariega River and incorporates the river, estuary and ocean – all important contributions to Sibuya’s biodiversity and for which the team have a great responsibility to conserve.

Rocky shores and coastal dunes – Learn about and monitor the coastal marine environment’s biodiversity which includes the largest dunes in the southern hemisphere!

Outreach Project – This takes place with the coastal village’s community and an important aspect is the beach and riverside clean-up.

YOUR PROJECT

AFRICA

Sample Itinerary

Week 1

- Welcome presentation, elephant monitoring, elephant conservation talk, camera trap set up
- Rhino conservation talk, rhino monitoring
- Fence management, alien plant removal
- Bird count, ornithology presentation
- Community outreach (delivering dog food), town trip
- Leisure time/adventure activities

Week 2:

- Lion conservation presentation, lion monitoring, buffalo management
- Alexandria Dune Trail, rocky shore practical
- Boat cruise
- Wildlife monitoring drive and picnic
- Camera trap collections and farewell dinner

It's important to remember that wildlife does not work to an agenda, therefore activities may change at short notice!

AFRICA

DIPLOMA IN INTERNATIONAL VOLUNTEERING

Centre for Global Citizenship
Studies (CGCS).

Diploma in International Volunteering with a Wildlife Conservation specialism

Delivered by the Centre for Global Citizenship Studies (CGCS), this Level 3 Diploma is designed to turn your hands-on experience in South Africa into a recognised qualification, giving you academic credit and evidence you can use for university applications, personal statements and job interviews.

Beyond the subject knowledge, you'll build and evidence skills in: leadership, adaptability, teamwork, critical thinking, cultural intelligence, and personal resilience.

The course is designed to fit around your trip with online learning completed at your pace. The modules include:

- Prepare (Before your trip)
- Specialise (Pre-trip learning)
- Participate (During your trip)
- Reflect (After your trip)

Each module comes with course notes, videos, recommended readings, and compulsory assignments.

You will cover: Biodiversity & Ecosystem, Wildlife Protection, Community Engagement, Legal & Ethical Considerations.

Cost: £425
Enrolment upon
payment of the fee

AFRICA

ACCOMMODATION & LIFESTYLE

Life in the African Bush

Sibuya – Intaka Lodge

Together with the team, the group will be accommodated and hosted at Intaka Lodge.

The lodge overlooks a panoramic view of deep valleys and rolling hills with the ocean and bush as a backdrop.

Participants will share comfortable four bedded rooms with en-suite bathrooms, including full board (3 meals a day).

Food at the Project

Three meals a day are provided.

Breakfast will consist of toast and cereals; lunch may include pasta, wraps, sandwiches, salad and hot dogs; dinners include meat, fish and vegetables with rice, potatoes or pasta.

Dietary Requirements

Provision can be made for Vegetarian & Vegan diets and for those who have a medical condition such as Coeliac disease that requires a Gluten Free Diet and for those with severe allergies to dairy, eggs or nuts.
